DOMINANT PRAKRUTI This test is a rough guideline to ascertain your dominant constitution, the disease tendencies you may be predisposed to, and the domains of life which may easily imbalance for you. If your body and mind type are the same, balance requires less fine tuning. Although body and mind are calculated separately, as it does influence the importance of which treatments to apply, what happens to the mind will affect the body and vice versa.	DOMINANT BODY SCORE. Represents dominant physical type you were born with. Work to create balance through more physical therapy tools of opposing nature. Such as: diet, herbal medicine and exercise.
	DOMINANT MIND SCORE. Represents dominant mental type you were born with. Work to create balance through more psychological therapy tools of opposing nature. Such as: meditation, mind herbs, lifestyle and profession.

Balancing your gifts. Ayurveda is not a system of denying your innate gifts. It asks us to understand ourselves deeply and live our strengths, yet sandwich those strengths with opposing qualities. Then we can live them for longer without creating imbalance. The details of how to balance your dosha through opposing qualities is given in this article: <http://www.kimmana.com/treating-you-as-an-individual-with-ayurvedic-dosha/>

Treat Vikruti (present condition) Over Prakruti. This test is designed for healthy people wishing to create balance. Those with presenting imbalances should combine the Vikruti Test and work with a skilled practitioner to effectively guide you in treating the present imbalance.
